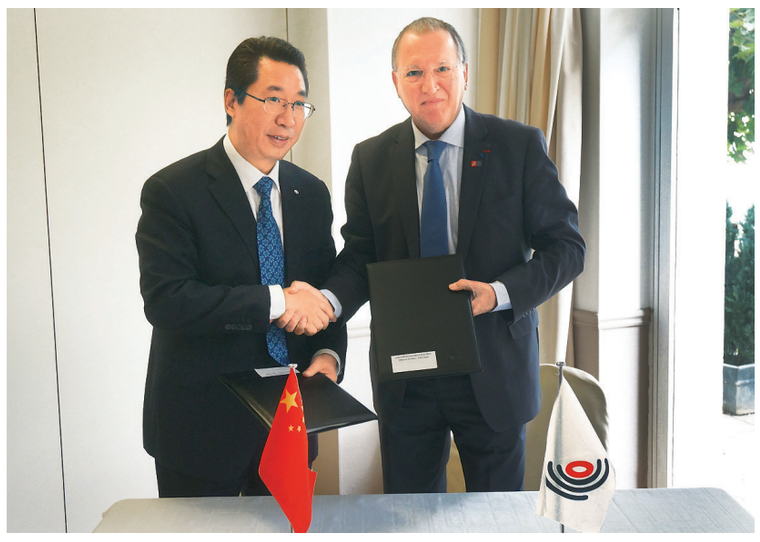
中欧两局第十次局长会议在法国举行



On September 30, the 10th SIPO-EPO Heads Meeting, attended by SIPO Commissioner Shen Changyu and EPO President Benoît Battistelli, was held in Paris, France. The two sides reviewed their mutual cooperation in the year of 2015, and exchanged views on Cooperative Patent Classification (CPC), patent data exchange, EPOQUE and staff training. A new Work Plan on bilateral cooperation 2017 was signed after the meeting.

"I'm very glad to see the unswerving and unremitting efforts made by EPO in improving the quality of patent and service," said Shen. He congratulated EPO and Benoît Battistelli on the contributions made in the development of global patent system. As strategic cooperation partners, both SIPO and EPO carried out exchange and cooperation at the level of management, business and technical. In parallel, both sides regularly exchange views on important international IP affairs via the platforms of WIPO and IP5 office cooperation. In the year of 2015, the celebration of the 30th anniversary of the cooperation between SIPO and EPO was held in Europe and China respectively. The year of 2017 will mark the 10th anniversary of the establishment of strategic partnership between the two offices, which is another milestone and new beginning of the cooperation of the two offices. "SIPO hopes to upgrade the strategic partnership with EPO, and jointly push forward the development of the global patent system, and make contributions in the development of economic, S&T, and culture in China and Europe and even the whole world," Shen added.

"The role of China in the patent system is incredibly important. Its growing prior art, innovation sectors and ever growing demand for innovative new products means that China is valuable for European innovators. Meanwhile, Europe is receiving more and more patent applications from China," said Benoît Battistelli. He highly admired the great importance attached by SIPO in strategic cooperation between the two offices. "For a long time, the unremitted efforts made by two offices have given a powerful push to the development of IP and innovation between China and Europe. The strategic partnership offers real benefits to users of two countries. With close and continuing cooperation at all levels, this collaboration will yield further results long into the future," said Benoît Battistelli.

After the meeting, Mr. Emmanuel Lamy, the Mayor of Saint-Germain-en-Laye, met with Shen Changyu and Benoît Battistelli. They also received interviews of local media about IP cooperation between China and Europe.

In 2015, EPO received 5,721 patent applications from China, an increase of 22.2% year-on-year.
