Honda seeks reversal of TRAB ruling

本田为"广本"商标上法庭

he Beijing No. 1 Intermediate People's Court takes Honda Technology Research& Development (China) Investment Co., Ltd's suit against the Trademark Review and Adjudication Board (TRAB) under the State Administration for Industry and Commerce and the third party Mr. Li from Wenling City, Zhejiang Province over the trademark of Guangben, pronouncing Guangzhou Honda in Chinese. Honda seeks reversal of TRAB's ruling over the disputed trademark.

Mr. Li applied Guangben for demark registration on motor and engine starter on August 2003, he claimed the Guangben trademark originating from the Chinese phrase Guang Da Ben Yuan, means bright and origin, thus the trademark is of originality. Honda held that as a famous car maker, Guangzhou Honda Motor is generally called GuangBen for short, registration of Guangben will mislead the public and injure the trade name right of Guangzhou Honda Motor Company.

The TRAB argues that Honda indeed enjoys the prior right of the trade name of Guangben, however Honda's delivered materials didn't refer to the usage of Guangben on motor and engine starter in Class 7, and can not prove the Honda' popularity in Class 7, so they approved Mr. Li's application.

本报讯 浙江省温岭市的李某 申请注册"广本"商标,被中国国家工商 行政管理总局商标评审委员会(以下简 称商评委)核准注册。为此,本田技研工 业(中国)投资有限公司(以下简称本田 公司)将商评委诉至法院,请求撤销商评 委的被诉裁定。6月17日,北京市第一 中级人民法院开庭审理了此案。

本案第三人李某于 2003 年 申请在马达、引擎启动器等商品上注 册"广本"商标,李某称"广本"源于 "广大本源",该商标具有独创性。本 田公司认为,作为知名的汽车生产 商,"广州本田汽车"被普遍称为"广 本"已经为人们所熟知,将"广本"注 册为商标是在误导公众,并损害"广 州本田汽车有限公司"的商号权。

对此,商评委答辩称,本田公司对于 商号"广本"二字应当享有在先权利,但是 在商标异议复审中,本田公司提交的证 据均未涉及该公司商号在第7类马达、 引擎启动器等商品上的使用情况,不 能证明该公司在第7类商品上的知名度。 此案没有当庭宣判,本报将继续

中国探讨知识产权司法保护"三审合一"模式

n June 22, IPR judges from national court system and IPR experts gathered in Wuhan to discuss a new model of trial for IPR cases, which combines trial of criminal, civil and administrative in one tribunal.

According to the new model, the intellectual property tribunal has the jurisdiction over any IPR case. Judges and scholars held that the current separate trial model has caused inconsistency of trial standard, unreasonable jurisdiction, and waste of judicial resources due to fast growth of IPR cases and the sophisticated, technical nature of these cases. The new trial model may bring more consistence trial standard, integrate judicial resources and to improve judicial efficiency.
